Resin Rubber LLC supplies EPDM rubber granules, aliphatic polyurethane binders, tools and kits for projects across the United States and Canada. We are a wholesaler and supplier — installations are performed by our approved installer network.

Why Choose Resin Rubber?

01

UV-STABLE ALIPHATIC BINDER

Our preferred binder is aliphatic polyurethane resin — UV-stable, flexible, strong and weather-resistant under heavy use.

40-COLOUR EPDM RANGE

28 solid-colour granules and 12 branded multi-colour blends. The blend becomes part of the project specification.

SLIP-RESISTANT WHEN WET

Naturally slip-resistant and soft underfoot — suited to pool decks, splash pads and wading areas.

BONDS TO MANY SUBSTRATES

Specified over concrete, asphalt, pavers, wood and composite decking where the base is structurally sound.

RECYCLED RUBBER CONTENT

Granules use recycled rubber, so the system delivers a hard-wearing finish with a lower-waste material story.

LOW-MAINTENANCE FINISH

Regular sweeping and occasional washing with mild soap and water. No constant resealing cycle to budget for.

FAST ON SITE

Most residential projects are completed within 1–2 days, depending on area size and the condition of the base.

APPROVED INSTALLER NETWORK

We supply the materials; installations are carried out by approved installers. Requests answered in 24–48 business hours.

FULL DIGITAL TOOLKIT

Material calculator, job pricing calculator, contractor portal and dealer portal — quote, plan and order in one place.

Headquartered in Sarasota, Florida — supplying the United States and Canada

Wholesaler and supplier of EPDM rubber surfacing materials. Installations performed by approved installers.

941-415-0273

info@resin-rubber.com

Coast to Coast. US & Canada.

ResinRubber supplies projects across the United States and Canada from its Sarasota, Florida headquarters. Homeowners and specifiers are matched to an approved installer through our request form; dealers hold their own protected 50-mile territory.

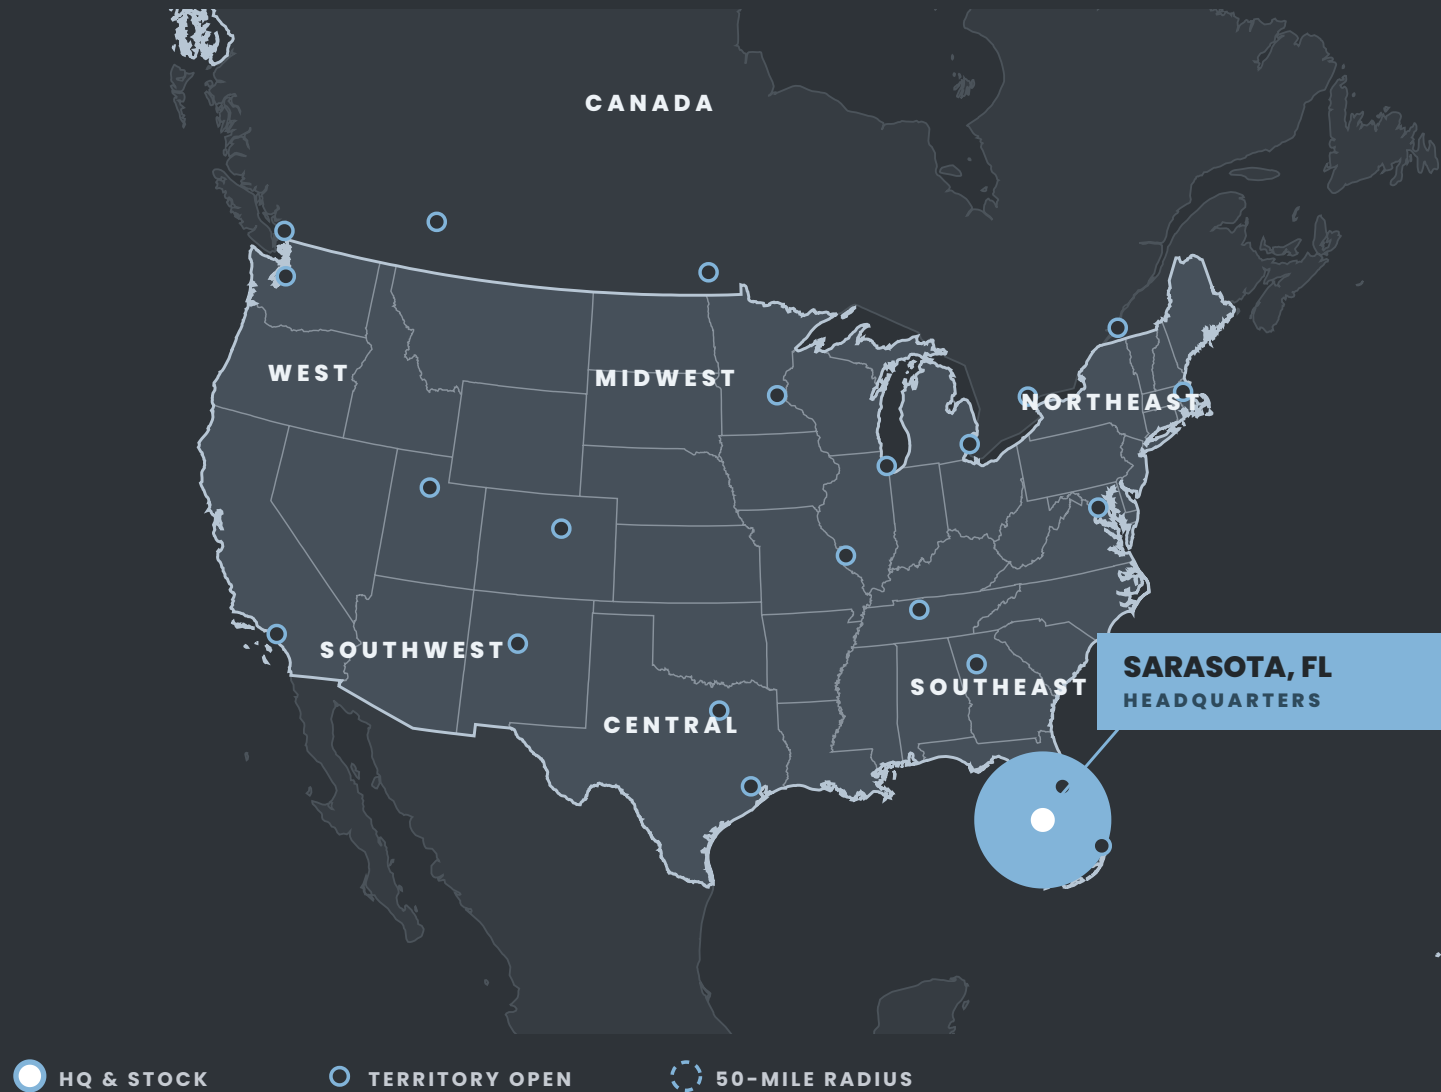

50-MILE RADIUS

NEXT STEP UP

Dealer Supplier — \$45,000

A stocking dealership: six pallets of opening stock, a fitted-out showroom, a protected territory and the right to supply other installers in your area at a margin.

Your buy-in is credited toward an upgrade. Prices exclude freight and applicable taxes. Financing available.

Two Ways In. One Business.

A ResinRubber dealership is a business in a box—material, tooling, training, a branded website and the contractor CRM that carries your leads. Come in as an established installer, or start from nothing.

Leads generated for your area

ResinRubber runs the local campaigns; enquiries land in your own contractor CRM.

Branded website & CRM from day one

Both programs include a branded site and the contractor CRM — no build, no setup.

A master installer on your first job

Someone from HQ is on site with you for the first project, not just on the phone.

2-day HQ sales & marketing training

Install, estimating, quoting and selling—taught at headquarters, both tiers.

RR80L

Forced Action Mixer.

The mixer the system is specified around—1400 W brush less motor, guard-open interlock and a 55 L working capacity. Models RR80L / RR80L-1. Full manual supplied with every unit.

MOTOR & DRIVE

Power supply	230V / 50Hz
Rated power	1400W
Motor type	Brushless, high-voltage
Overload protection	Automatic cut-off
Safety switch	Guard-open interlock
External speed	45 rpm
Internal speed	450 rpm
Tool connection	M14 thread

CAPACITY & BUILD

Bucket total volume	65 L
Working capacity	55 L
Paddle diameter	Ø140 mm
Paddle length	260 mm
Machine dimensions	99 * 58.2 * 71.5 cm
Net weight	26 kg
Noise level	< 78 dB(A) at 1 m
IP rating	IPX4 (splash-resistant)

STANDARD EPDM MIX

9:1

RUBBER : BINDER

By volume. Non-negotiable for full cure strength.

36 L

GRANULES PER BATCH

EPDM, HIG or PRO grade. Never exceed 45 L total volume.

4 L

BINDER PER BATCH

Resin Rubber approved binder. Pre-mix Part A & B thoroughly.

3 MIN

From binder addition. Past 4 minutes breaks down granule structure.

APPROVED MATERIALS

EPDM granules (HIG or PRO grade) · Resin Rubber binder · marble, quartz & granite aggregates only.

NEVER USE

Limestone aggregate · unwashed or wet material · unapproved solvents · petrol-based cleaners.

2-year warranty, parts & motor

Operating range 30°F–105°F. Order spares at resin-rubber.com/parts or through your dealer.

Material Cost, Per Square Foot.

Installed material cost per square foot. Columns are binder type and supply format.
Aliphatic is UV-stable for outdoor work; aromatic is for indoor and under-cover.

EPDM Wear Layer

Top layer at 0.625"thick · 9Lrubber : 1 L resin

GRANULE (PER SF)	Aromatic Drum	Aromatic Pail	Aliphatic Drum	Aliphatic Pail
HIG Primary	\$6.50	\$6.64	\$7.68	\$7.80
HIG Pre-Mixed	\$7.05	\$7.19	\$8.23	\$8.35
PRO EPDM	\$9.20	\$9.34	\$10.38	\$10.50

SBR Base Layer

Base at 1.5"thick · 4Lresin : 1 bag · 6 bags = 50 sf · SBR @ \$55/bag

BASE (PER SF)	Aromatic Drum	Aromatic Pail	Aliphatic Drum	Aliphatic Pail
SBR Base	\$11.14	\$11.55	\$14.59	\$14.94

Combined System

SBR base1.5"EPDMtop0.625 · full installed material per sf

GRANULE (PER SF)	Aromatic Drum	Aromatic Pail	Aliphatic Drum	Aliphatic Pail
HIG Primary	\$17.64	\$18.18	\$22.27	\$22.74
HIG Pre-Mixed	\$18.19	\$18.73	\$22.82	\$23.29
PRO EPDM	\$20.34	\$20.88	\$24.97	\$25.44

HOW THESE NUMBERS ARE CALCULATED

Coverage anchor: 6 bags (55 lb / 25 kg) = 50 sf @ 1.5" ⇒ 0.12 bags/sf at 1.5", i.e. 0.08 bags per sf per inch.

Bag volume derived from that spec: (50 sf × 1.5 in) / 6 = 29.5 L of loose material per bag.

EPDM binder: 9 L rubber : 1 L resin ⇒ 29.5 / 9 = 3.28 L binder per bag.

EPDM top @ 0.625": 0.050 bags/sf granule + 0.164 L/sf binder.

SBR base @ 1.5": 0.12 bags/sf granule (@ \$55) + 0.48 L/sf resin.

Binder priced per 5 gal / 20 kg unit = 18.93 L.

Material cost only
Excludes labour, surface prep, freight, waste and your margin.
Build those on top before you quote.

Prices per the RR Master Retail Pricing Sheet. Verify current material prices before quoting — figures move with supply.

Highlighted columns are the aliphatic (UV-stable) system — the specification for outdoor work.

BUILT TOUGH. DESIGNED TO FLEX.
